

Arnaud Frennet

Commercial Manager, Casa Silva

Born and raised in Belgium, Arnaud's passion for wine began as an evolution of his family's agricultural background and relationship with the Trappist culture.

Passionate about watersports, he interrupted his Agronomics studies to fully focus on his sporting career in 1994. After several years of traveling the world for sports, he met his future wife—a Chilean woman named Vania—and settled in her country.

In 2003, after a few years working in advertising and international trade, Arnaud joined Casa Silva. Passionate about agriculture, wine and traveling, Arnaud found himself in his dream position when he was appointed Commercial Manager in 2006. He is now responsible for the whole commercial department and oversees the global sales and marketing of the company.

Since 2010 Arnaud has been a member of the International Council of Wines of Chile, the country's Wine Producers Association, playing an important role in the development of the industry.

Arnaud enjoys spending time with his wife and two daughters. His hobbies include all kinds of watersports and outdoor activities, as well as wine tasting, beer brewing, reading, and traveling.
